TO WHOM IT MAY CONCERN:

Please do NOT feel that the US. Government needs to interfere with if, how and when individuals can invest using options in either our retirement accounts or other investment accounts. Many of us have been trained thoroughly in this technique, subscribe to investment advice that helps us further, and we create extra income in our retirement using these features. It is absurd to think that we cannot be responsible for our own investing, our level of risk, and the income we need to generate. This is a serious infringement on our rights as Americans! We use options to protect ourselves and our portfolios from excessive risk in this very volatile economic environment that our very government has created! Leave our options alone!

Sincerely,
Barbara Sommermeyer
Fort Collins, Colorado
